DETAILED ACTION

Response to Arguments

1. Applicant's arguments, dated 08/13/2008, have been considered but are not persuasive.

The applicant argues that in the final rejection, mailed on 05/15/2008, Examiner has not addressed the following limitations in claims 9 and 13 in the Office Action - *"first communication means is turned off when reception of said image data is not conducted."* In response to the applicant's argument, the Examiner acknowledges that he made a typo mistake when rejected claims 9 & 13. It is noted that the above limitations in claims 9 and 13 are the same as limitations in claim 2 which has been rejected using the Kumakura reference in view of the Farrell reference (see pages 3-4 of the final rejection). Although the above limitations in claims 9 and 13 are not recited in claim 1 but these limitations are in claim 2 which is depended on claim 1 and are previously considered. Therefore, the Examiner believes the final rejection is not premature since Examiner has considered all the limitations in claims 9 & 11 which can be found in claims 1 & 2.
